Downwind: Laboratory	0.1 f/cm ³	Pass	Pass	Pass	Pass	Pass	Pass	Pass	Pass	Pass	Pass

Notes:

"Pass" designation indicates that the concentration for the applicable constituent was below the permissible exposure limit (PEL) and a "Fail" designation indicates that the concentration for the applicable constituent was at a level that exceeded the PEL. Note: All pass or fail designations are based on the maximum recorded concentration for each constituent on the monitoring date.

PEL = Permissible exposure level per Occupational Safety and Health Administration (OSHA), National Institute for Occupational Safety and Health (NIOSH), and Environmental Protection Agency (EPA) regulations.

NA = Not applicable; constituent not analyzed at monitoring station, as no waste removal or hauling occurred on this date. Waste excavation began on March 17, 2009.
