CURRENT STATUS AS OF August 24, 2021

Alert Level Descriptions

- **LOW ALERT**: Open with gradual easing of risk-mitigation strategies. Vaccine or effective treatment is widely available.

- **MODERATE ALERT**: Open with risk-mitigation strategies in place. A manageable number of individuals test positive, and contact tracing suggests that exposures are confined to small numbers of people. Effective contact tracing is possible, and there is confidence in the ability to contain, isolate, and remediate small flare-ups.

- **HIGH ALERT**: Open, but with mitigation strategies as listed in Moderate Alert in place; high level of readiness to close if conditions do not improve rapidly.

- **VERY HIGH ALERT**: Only essential employees on campus; telework whenever possible; 24-to-72-hour planned move-out of students from campus. Exception: approved students (e.g., international, extenuating circumstances). All instructions online.
