Class of 1970 – Mike Brown

The first ARPNET node (the predecessor of the internet) was established.

The Lacrosse team down 4-0 in the first quarter vs Penn State scored 2 points in each of the next three quarters to win 6-4.
However the event that was clearly significant to the F&M community was announced in January of 1969. As reported in the College Reporter, “The Board of Trustees has approved co-education for the fall of 1969. Meeting in a special session in New York City ...the Trustees authorized the College to begin immediately to admit qualified women at both the freshman and upper-class levels for enrollment in September.”
