

Alert Level Descriptions

- **LOW ALERT:** Open with gradual easing of risk-mitigation strategies. Vaccine or effective treatment is widely available.
- **MODERATE ALERT:** Open with risk-mitigation strategies in place. A manageable number of individuals test positive, and contact tracing suggests that exposures are confined to small numbers of people. Effective contact tracing is possible, and there is confidence in the ability to contain, isolate, and remediate small flare-ups.
- **HIGH ALERT:** Open, but with mitigation strategies as listed in *Moderate Alert* in place; high level of readiness to close if conditions do not improve rapidly.
- **VERY HIGH ALERT:** Only essential employees on campus; telework whenever possible; 24-to-72-hour planned move-out of students from campus. Exception: approved students (e.g., international, extenuating circumstances). All instructions online.

Full-Time Students Total	2263
Students In-Residence or Commuting	1484

COVID-19 Indicator	#	As % of Students In-Residence or Commuting	Notes
Entry Testing Round 1	1476	99.5%	
Entry Testing Round 1 With Results	1472	99.2%	
Entry Testing Round 1 Testing Positive	7	0.5%	2 are residual positives, meaning the test picked up residual traces of the virus because the student was infected prior to campus arrival, but is no longer contagious. Excluding the false positives, the # is 7 and % is 0.5%
Entry Testing Round 2	1409	94.9%	
Entry Testing Round 2 With Results	1397	94.1%	
Entry Testing Round 2 Testing Positive	2	0.1%	

Surveillance* Testing Round 1	233		269 students received a notification to report for testing. We are working with those who did not show to arrange make-up tests.
Surveillance* Testing Round 1 With Results	230		
Surveillance* Testing Round 1 Testing Positive	1		
In Quarantine** On Campus (at risk and waiting for test result)	21	1.4%	A symptomatic person waiting for a test result is considered in these numbers to be in quarantine.
In Isolation On Campus (positive test)	0	0.0%	
In Quarantine** at Home	2	0.1%	
In Isolation at Home (positive test)	4	0.3%	
In Hospital	0	0.0%	
Cumulative Positive Tests Since Arrival (Entry/Surveillance testing plus clinical work)	10	0.7%	2 are false positives as discussed above. Excluding them, the rate is 0.3%

**Surveillance Testing* is purposefully a smaller sample of the student population living and learning on campus

***In Quarantine* indicators do not include students in quarantine as a result of move-in COVID-19 testing

- These numbers are subject to rapid change for a variety of reasons, including arrival of test results.

Surveillance Testing	Sample Size	Number of Tests	Number of Results	Number of Positive Test Results	Percent of Positive Test Results
Round 1 (Sept. 9-10)	269	233	230	1	0.4%

Wastewater Testing	Weis	New	Ware	Brooks	Thomas	Bonchek
Week of Aug. 24	Negative	Negative	Negative	Negative	Negative	Unable to sample
Week of Aug. 31	Negative	Negative	Negative	Negative	Unable to sample	Unable to sample
Week of Sept. 7	Negative	Negative	Negative	Positive	Negative	Unable to sample

- Bonchek sampling resumed September 14.
- As a result of the week of September 7 sample's positive result for Brooks, all residents are being tested on September 15.
