2:30 p.m. The Emperor of all Maladies and Halachic Bioethics: My Professional and Personal Journeys. Frank Lieberman ’75, Director, Adult Neuroradiology Program, Hillman Cancer Center and Professor of Neurology, University of Pittsburgh School of Medicine. Both my professional and personal life trajectories were shaped by faculty and friends at F and M. My interest in bioethics and the interface between religion and medicine, and in profound ways, my evolution into an Orthodox Jewish physician was inspired by Robert Mickey. Professor Mickey remains a role model as a scholar and teacher as well as a person of faith and I was fortunate to have maintained a relationship with Professor Mickey long after I graduated and he retired.

105, Stager Hall

3 p.m. United States and Cuba Radio Wars, William Jahn ’65, Jahn Telecommunications LLC, former Foreign Affairs Officer, U.S. State Department. During the Bay of Pigs, our government leased time on commercial AM radio stations to broadcast to the Cuban people. During the civil rights movement in the 1960’s, Cuba broadcast to blacks in the South. In 1981 our government expanded our “public diplomacy” by announcing plans for a new station named after Jose Marti, a famous Cuban patriot in the war of independence with Spain. In the ensuing opening salvos of a radio war in which Cuba had the upper hand, the U.S. was prepared to use missiles to take out the Cuban transmitters. This is the story of how it all played out.

109, Stager Hall

3:30 p.m. In Search of a Progressive U.S. Foreign Policy, Joanne Comerford ’85, Campaign Director, MoveOn.org. In 2015, the United States military budget will exceed the total spending of the next nine largest national budgets combined: China, Russia, Saudi Arabia, France, UK, India, Germany, Japan, and South Korea. What are the domestic and international economic, social, and political costs of maintaining the world's largest military? Can we imagine shifting our nation's foreign policy to one that relies more heavily on diplomacy and conflict prevention? Our speaker will take you on a tour of how our government spends your tax dollars and engage you in a discussion of our national priorities.

112, Stager Hall
