General Directions
1. Open the right-side cabinet, beneath the front screen, for access to the DVD/VCR, the remotes, and the laptop jacks. See JOS staff for key.

To View a Video or Computer source on the front screen
1. Aim the Epson remote control directly at the ceiling-mounted LCD projector.
2. Press the red Power button on the Epson remote control. The light on the projector will begin to flash green.
3. Choose your source by pressing the Source button on the remote: Comp1 or Video.
   - Comp 1 for an internal or external computer
   - Video for DVD or Videotape.
4. Press the Power button twice to shut off the projector when you have finished.
   The projector’s power light will flash amber (orange) as it cools down. Eventually, you will see a solid amber light indicating the projector has totally shut off.

To Control the volume
1. Press the Volume buttons on the Epson remote control.

To select an external computer as your source
1. Attach the external computer’s VGA monitor cable to the VGA jack found inside the cabinet. (If desired, you may also attach an audio cable (into Audio) and ethernet cable (into Network) at the same jack.
2. Press Comp 1 on the Epson remote.
3. Turn the external computer on.

To View a Video via the DVD/VHS player
1. Insert a videotape into the player. N.B. - the video will start to play automatically.
2. Press Video on the Epson remote.
3. Control playback with the front buttons on the player or with the remote control.

To View Cable TV channels
1. Press the Power-TV1 button on the Dish Network box to turn it on.
2. Press the Power button on the DVD/VHS player or remote.
3. Press the DVD-VCR button, if need be, to select VCR on the player.
4. Use the CH ▲▼ buttons to set the DVD/VHS player to Channel 3.
5. Press the Cable TV channel number on the Xfinity remote i.e. 55 for BRAVO.
6. Turn off the Dish Network box when done to prevent overheating.

To View a DVD via the DVD/VHS player
1. Press the leftmost eject button to eject the DVD tray. Place the DVD in the tray.
2. Press Video on the Epson remote.
3. Control playback with the front buttons on the player or with the remote control.

Turn off the projector (to extend the bulb and projector life)
1. Point the projector remote at the LCD projector.
2. Press the red Power button twice to shut off the projector when you have finished.
   The projector’s power light will flash amber (orange) as it cools down. Eventually, you will see a solid amber light indicating the projector has totally shut off.
Final Shutdown
1. Turn off the projector and place all remotes inside the cabinet.
2. Eject all videos, compact discs, memory sticks, DVDs, etc.
3. Carefully reattach any cables if you disconnected them, to the inside-cabinet jacks.
