General Instructions
1. Press the Crestron touch screen on the rack to activate it.
2. Press the Sources button. Choose your source:
   - Aux PC
   - Room PC
   - Aux Video
3. The LCD projector will automatically turn on.
4. To control the Volume, press the up or down arrow on right side of touch screen.
5. The Enviro button can be used to mute the image, and turn on/off projectors.
   (N.B. - Always use the Sources button for initial startup and the Off button for final shutdown.)

To view the internal computer
1. Press Room PC video source on the touch screen.

To view a laptop computer
1. Attach a VGA cable, from your Laptop to the Aux PC plate on the rack.
   (N.B. - you may also connect an audio cable if you desire)
2. Press Aux PC video source on the touch screen.
3. Turn on the laptop computer.

To view an external Video Source
1. Attach the external player/source to the Aux Video jack on the rack.
2. Press Aux Video video source on the touch screen.
3. Control the external player/source via the player’s controls.

Final Shutdown
1. Eject all memory sticks, CDs, etc.
2. Always shut the Crestron system down completely. If you do not, you will cause problems for the next user.

To shut the Crestron system down
1. Press the Off button on the side of the touch screen.
2. “Are you sure you want to exit and shut the system down?” Press Yes.
3. The LCD projector will cool down and shut off automatically.
